Vorwort.

Das vorliegende deutsch-englische Wörterbuch verdankt die Hauptelemente seines Bestandes neben den lexicalischen Sammlungen, welche in ihren Anfängen bereits von Dr. **J. G. Flügel**, dem Vater des Verfassers, sowie vom Verfasser selbst angelegt worden waren und zu großem Theile den deutsch-englischen Wörterbüchern von Dr. **A. W. Meißner** (Vol. II der 3. Aufl. von Dr. J. G. Flügel's Complete Dictionary), sowie dem 2. Theile von Dr. **Felix Flügel's** Practical Dictionary als erste Grundlage dienten, einer Reihe von Werken, welche theils in den Vorreden zu den ebengenannten deutsch-englischen Wörterbüchern aufgezählt werden, theils weiter unten zu nennen sind. Die erwähnten Sammlungen* sind seit dem Abschlusse jener Werke vom Verfasser stetig bis zum Jahre 1878 fortgeführt worden und, soweit es der leider sehr beschränkte Raum zuließ, von einem langjährigen lieben Freunde des Verfassers, dem Prof. **Felix Liebrecht** in Lüttich, mit großem Zeitopfer und Hintansetzung eigener wichtiger Arbeiten diesem deutsch-englischen Theile einverleibt worden; seine genaue Kenntniß der Feinheiten der englischen Sprache befähigte ihn ganz besonders zu dieser Aufgabe, für deren Durchführung (welche ihren Abschluß in dem genannten Jahre erreichte) ihm aufrichtigster Dank zu zollen ist. Diese Vorarbeit wurde vom Verfasser aufs genaueste geprüft, durchgearbeitet und vervollständigt. Benutzt wurden außerdem, obwol in geringerem Maße, der deutsch-englische Theil des Wörterbuches von **Hilpert**, sowie der des **Lucas**. Das Werk des Hilpert oder vielmehr seiner fleißigen Fortsetzer (ich spreche hier immer nur vom II., deutsch-englischen Theile) erschien erst 1845, zwölf Jahre nach Hilpert's Tode, und ist ausgezeichnet in seiner Art, noch vielfach brauchbar, wenn auch von der Zeit in manchen Puncten überholt. Der bereits 1843 als grober Plagiarius überführte Grieb ist nicht auf eine Linie mit dem von ihm ausgeschriebenen Hilpert zu stellen. — Was die Benutzung des Lucas'schen Werkes anlangt, so ist dieselbe stets in den Grenzen des litterarischen Anstandes geblieben, welche umgekehrt Lucas selbst bei der vielfach buchstäblichen Ausschreiberei der beiden oben zuerst genannten Werke nicht einzuhalten verstanden hat; ein Umstand, welchen niemand ahnen kann, der bloß seine Vorrede liest, und welchen auch die sogenannte Kritik in den langen Jahren seit Erscheinen des Lucas'schen Werkes nicht bemerkt oder beachtet hat. Wie beim I. (englisch-deutschen) Theile hat Lucas einige Werke ohne jede Nennung der Namen

---

* Der Hauptsache nach vom Verf. des vorliegenden Buches gemacht; dieselben beziehen sich natürlich in beschränkterem Maße auf die älteren großen Namen der deutschen Litteratur, welche ja in den unten zu nennenden Hauptwerken der deutschen Lexicographie die erste Stelle einnehmen; daher Anführungen aus Luther, Schiller, Göthe &c. zumeist (nicht ausnahmslos) aus diesen lexicalischen Werken entlehnt sind; der Verf. fußt jedoch nicht allein auf diesen Wörterbüchern, sondern hatte Anlaß zu einer bescheidenen Nachlese, welche sich auf die eben genannten Namen, sowie namentlich auf eine Auswahl aus den Werken folgender Schriftsteller bezieht: Hagedorn, Kleist, Gellert, Gleim, Klopstock, Lessing, Wieland, Jean Paul, Schubart, Claudius, Hölty, Voß, Salis, Matthisson, Seume, Körner, Eichendorff, Arndt, Chamisso, Uhland, Rückert, H. Heine, Lenau, J. Mosen, Freiligrath, Geibel, Herwegh, Hartmann, G. Freytag, Auerbach u. s. w.

ausgenutzt: dazu gehören besonders die technologischen Werke, deren jedes allgemeine Wörterbuch allerdings nicht mehr entbehren kann, deren mühselige Arbeit aber doch wol um so mehr wenigstens Namensnennung verdient. Von diesen sind hier besonders zu erwähnen: Technologisches Wörterbuch der deutschen, französischen und englischen Sprache, von Hofrath **J. A. Beil**. Wiesbaden, 1853; sowie: Technisches Taschen-Wörterbuch für Industrie und Handel, 1. Theil (deutsch-englisch-französisch), Wiesbaden, 1873 (bildet einen Auszug aus der 2. Auflage des Beil'schen Werkes); ferner: Dr. **Tolhausen** &c., Technologisches Wörterbuch in deutscher, französischer und englischer Sprache. Paris, 1855 (2. Aufl. Leipzig, 1874/75), ein sehr umfassendes, treffliches Werk; Dr. **Carl Hartmann**, Handwörterbuch der Berg-, Hütten- und Salzwerkskunde, 3. Aufl. Weimar, 1860; Dr. **J. G. Flügel**, Kaufmännisches Wörterbuch in drei Sprachen, 2. Theil (deutsch-englisch-französisch), 2. Aufl. bearbeitet von Dr. Felix Flügel. Leipzig, 1853; Deutsch-englisches Handels-correspondenz-Lexicon von **Friedrich Noback** und **Thomas John Graham**. Leipzig, 1865, ein besonders Kaufleuten sehr zu empfehlendes, mit großer Umsicht und Genauigkeit gearbeitetes Werkchen, welches ausgiebig zu benutzen der Verfasser um so weniger Anstand genommen hat, als er wiederholt nur seine eigenen Beiträge entlehnt hat; von **Pierer's** bekanntem Universal-Lexicon wurden die neueren Auflagen benutzt; in geringerem Maße wurde **Meyer's** Conversations-Lexicon und eine Anzahl anderer Werke zu Rathe gezogen.

Daß von deutschen Wörterbüchern **Grimm's** Nationalwerk, soweit es erschienen war, sowie **Weigand's** treffliches Wörterbuch benutzt worden ist, wird Jedermann voraussetzen; sie sind oft genug im Werke selbst angeführt. Auch ist hier das einzige Buch, dessen Benutzung Lucas ausdrücklich erwähnt, als beständiger practischer und zuverlässiger Rathgeber zu nennen: **Sanders'** deutsches Wörterbuch, ein Werk außerordentlichen Fleißes und ein fast unerschöpflicher Schatz von Belegen aus der neueren und neuesten Zeit, aus welchen oft überraschende Belehrung in grammatischen und anderen Beziehungen fließt.

Was ein noch mannigfach im Argen liegendes Gebiet aller neueren Lexicographie anlangt, nämlich die naturhistorischen und medicinischen Ausdrücke, so muß ich besonders des thätigen Antheiles dankbar eingedenk sein, welchen mein ältester Sohn, **Alfred Flügel** (Dr. med., † als Arzt zu Siebenlehn 22. Jan. 1890), an der oft sehr mühseligen Prüfung und Zusammentragung dieser Ausdrücke, sowie namentlich an der Berichtigung mancher alten Irrthümer genommen hat, welche in den Wörterbüchern ihr Wesen treiben und aus einem Werke in das andere sich fortpflanzen.

Zum Schlusse dieses kurzen Vorwortes muß der Verfasser noch ganz besonders der außerordentlichen Mühe und Sorgfalt des Herrn Dr. **Friedrich Wilbrandt** (jetzt zu Doberan in Mecklenburg) gedenken, welche dieser feinsinnige Sprachgelehrte auf die Correctur dieses Theiles verwendet hat, häufig nicht bloß Correctur im gewöhnlichen Sinne, sondern Berichtigung mannigfacher Versehen des Inhaltes, welchen ein so umfangreiches Werk schwer entgeht. Seinen unermüdlichen Winken und Rathschlägen ist der Verfasser den größten Dank schuldig; eine so der Sache dienende aufopfernde Thätigkeit gehört bestimmt zu den seltenen Erscheinungen.

Endlich ist es ebenfalls Pflicht der Dankbarkeit, der aufmerksamen und sorgfältigen Art und Weise zu gedenken, mit welcher eine zweite Correctur des größten Theiles dieses deutsch-englischen Wörterbuches von Mrs. **Fischer-Burke**, früher in Leipzig, gegenwärtig in ihr Heimatland zurückgekehrt, besorgt worden ist; auch ihr verdankt das Werk manche kleine, aber doch wertvolle Berichtigung.

PREFACE.

The present German-English Dictionary is based on the lexical collections begun many years ago by my father, Dr. J. G. Flügel, the author of the Complete Dictionary of the English and German Languages, who intended to add a German-English part to that Dictionary. The working out of the English-German part proved however so laborious, that no time was left for executing the second task, and thus the addition of the German-English part for the first three editions had to be entrusted to other editors, Drs. Sporschil and N. W. Meissner. After the lapse of many years the undersigned who had greatly enlarged the original collections, undertook to remodel the inadequate work of the editors mentioned. The result has been before the public since 1852, when the German-English part of "Felix Flügel's Practical Dictionary" appeared, a book of which fifteen editions have since been printed. Besides the solid basis of this work which had cost no common amount of steady labour, ample materials for a larger work had been brought together by the present author up to recent times. These materials were made over to a friend, Prof. Liebrecht, of Lüttich, whose thorough knowledge of the English language and literature fitted him for the task, while the author was busily engaged with the English-German part; but the time Prof. Liebrecht could spare was so limited that he was obliged to give up the labour before 1878, leaving for the present author thorough revision, and in many points a complete re-cast of the work done. The German works consulted in constructing the work are mentioned in the German preface below, where the debt to the great national work of Grimm (as far as it had appeared), the excellent smaller German Dictionary of Weigand, the Technological Dictionaries, and others, are duly acknowledged. The admirable collections of Sanders' "Wörterbuch der Deutschen Sprache", brought together with stupendous diligence, and arranged with critical acumen, offered also an inexhaustible treasury of apt quotations, and the author regrets that the limits

prescribed to the German-English part of the present dictionary, prevented him from making a more extensive use of the materials brought together in the storehouses named. In fact the author's own collections could not be embodied to their full extent, although he has ventured to offer a modest after-gleaning of quotations from the works of Luther, Lessing, Schiller, and Göthe, and to call the attention of the reader to many a less familiar name, for example Hagedorn, Kleist, Gellert, Gleim, Klopstock, Wieland, Jean Paul, Schubart, Claudius, Hölty, Voss, Salis, Matthisson, Seume, Körner, de la Motte Fouqué, Eichendorff, Arndt, Chamisso, Uhland, Rückert, H. Heine, Lenau, J. Mosen, Freiligrath, Geibel, Herwegh, Hartmann, G. Freytag, Auerbach.

PREFACE

to the second reprint of the fourth edition.

It is the constant endeavour of the author, and as well of the publisher, of the present work so to improve it as to keep pace with the progress of the day. As the book is stereotyped, it was necessary to contract or even to omit altogether less important articles in order to give space for a number of desirable additions. It is true that the difficulty of deciding what ought to be admitted, and what to be excluded, is ever growing with the unceasing influx of new words and combinations, but the very multitude of the words suing for admission, prevented the author from entering upon a childish chase after the phantom of so-called "completeness". On the other hand it was not possible, for the present, to find a place for a number of suggestions kindly offered and gratefully received; in this connection Prof. Odermann, of Dresden, and, for the German and English part, Mr. C. Trafford, M. A., of Nottingham High School, deserve special mention. It is hoped that the favour hitherto shown to the work, will be continued to it in this its new shape.

Leipzig, November 1893.

Marks of Pronunciation.

‾ over vowels, denotes the long sound, *f. i.* Ā́d'ler, Tād'ler, Ā́rt, Ab'ārt (*cf.* Adriat'isch, Hart, Standar'te), Lēn'chen (*cf.* Len'de), Ā́dīl' (*cf.* Dil'le), Tōn (*cf.* Ton'ne), Rūf (*cf.* Puf'fen), Asȳl' (*cf.* Syl'phe), Bā̈r'tig (*cf.* Härt'lich), Behȫr'de (*cf.* För'dern), Bǖb'chen (*cf.* Hübsch). As all the vowels immediately followed by the accent, are long, it is unnecessary to place this sign of length over them; compare, for instance, Ga'be, Re'de, Ā́di'le, Mo'deln, Ru'fen, Wä'gen, Ȫ'len, Gü'tig, with Ab'gābe, An'rēde, Ā́dīl', Ab'mōdeln, Ab'rūfen, Ab'wā̈gen, Ab'ȫlen, Un'gǖtig. A syllable terminated by an accented consonant, is always short (An'ders, Et'was, = ăn'..., ĕt'... ꝛc.), only excepting the consonant h, which serves to lengthen the preceding vowel: Ah'le, Meh'ren, Ihr, Ohr, Uhr = āle, mēren, īr, ōr, ūr.

˘ over vowels, denotes the short sound; it is generally placed over such vowels which might be expected to have the long sound, compare *f. i.* the derivatives Năch'bar, Hŏch'zeit, Vŏr'theil, *with* Nāch, Hōch, Vōr.

¨ 1) over the vowel e, always marks the broad pronunciation, which is equal to ā̈; compare *f. i.* Fë'der, Lë'der, Rë'gen (*s.*) with E'del, Le'gen, Re'gen (*v.*). It is, however, to be remarked, that this e is not uniformly pronounced with the same sound in the different parts of Germany; the pronunciation given in this work is that of middle Germany. Here it may be remarked that Ae (ae), Oe (oe), Ue (ue) have not been considered as equivalent to Ä (ä), Ö (ö), Ü (ü), in this work, although they are often erroneously held to be so; thus ae ꝛc. in such words as Laertes, Boetius, Congruent are always to be pronounced separately. — 2) over the vowel i before an e, used as points of diæresis, to denote that these vowels are not to be pronounced as a diphthong, but separately, *f. i.* In'dïen (*pron.* In'dĭĕn), different from Dienen (dē'nĕn); this deviation from the general usage, according to which these points are placed over the e, was rendered necessary, because ë had already been chosen as a natural representative of the ä-like pronunciation of the letter e.

IV.

Signs.

* 1) denotes a word used in poetry, or in the elevated style; 2) *read* born, geboren.
† 1) *read* obsolete, veraltet; 2) *read* died, gestorben.
= *signifies* (is) equal to, (ist) gleich.

Lists of strong and irregular verbs and nouns.

Introductory Remarks. According to German grammarians verbs as well as nouns are divided into two large classes, called the strong and the weak; a third class is to be added, viz. those which for some reason or other do not decidedly follow either the strong or the weak conjugation or declension; they are called irregular.

Strong verbs as well as substantives are principally characterised by some change of their radical vowels, exhibited in verbs by the imperfect and participle past, in substantives by the Umlaut of the plural form; take, as examples the verb Singen (the infinitive exhibiting generally the radical vowel), imperfect: sang, participle past: gesungen (sing, sang, sung); and such substantives, as Vater, Sohn, Mutter, the plurals of which change the radical a, o, u, into ä, ö, ü: Väter, Söhne, Mütter.

While this change may be called an internal one, the *weak* forms embracing all the derivative verbs and nouns, are only changed by adding a termination. Thus Fallen, fiel, gefallen (to fall, fell, fallen), and Mann, Männer (man, men) belong to the strong class, while their derivatives Fällen, fällte, gefällt (to fell, felled, felled), and Mensch (*originally an adj.:* Männisch), *pl.* Menschen, come under the weak denomination. It is obvious that strong forms, representing the oldest class of words, as it were the marrow of the language, are only a minority, while the long series of derivational forms may be almost increased at will. In order to assist the learner, we here follow a general usage, and give a list of strong and irregular verbs, and a list of irregular substantives.

II.

As a list of all the strong substantives would have to embrace many words of foreign origin, and be of considerable length, it is preferable here merely to give the distinctive marks of this as well as of the weak declension.

Nouns of the *strong* declension, which are recognisable by an -s terminating the genitive,* frequently take the modification of vowel in the plural, invariably so, when the plural ends in -er. This modification of vowel has been indicated in the following table by ″.

Table of the terminations of the strong and weak declensions: —

Strong declension:			Weak declension:	
Singular	*Plural* (first form)	*Plural* (second form)	*Singular*	*Plural*
Nom. —	(″)—e	″—er	*Nom.* —	—en
Gen. —(e)s	(″)—e	″—er	*Gen.* —en	—en
Dat. —(e)	(″)—en	″—ern	*Dat.* —en	—en
Acc. —	(″)—e	″—er	*Acc.* —en	—en

Accordingly, it is only necessary for those who make use of this Dictionary to know, whether a substantive is strong (and in this case the form of the plural has always been given when modifying the radical vowel), or whether it is weak, or irregular. — The number of *irregular* substantives being very large and including many words derived from foreign languages (designated in the dictionary by an * preceding the word), merely a limited number of these has been given, with all the irregular words of purely German origin.

* Except in Feminines. No German feminine is declined in the singular.

A. **All,** adj. & s. (for the latter cf. also the separate article B) I. adj. 1) a) *The forms of the adj. with the gender-endings are never preceded by the article, and avoid the weak declension:* m. aller, f. alle, n. alles; b) *examples of the common use of* all (all; every; any) *particul. in the pl.* alle Menschen sind sterblich, all men are mortal; alle Leute, every body; alle Dinge, every thing; vor allen Dingen, before every thing, od. all, in the first place, first of all; auf alle Fälle, by all (or any) means: alle Protestanten waren für ihn, alle Katholiken gegen ihn, all the Protestants were for him, all the Catholics against him; alle beide, both of them (dem Engl. ganz fremd u. lächerlich würde sein: all both oder all the two); alle drei, alle vier ꝛc., all three, all four, &c.; ich glaube, ich kenne sie alle beide, I believe I know them both; hier sind die kleinen Kinder, es ist unmöglich sie alle beide zu halten, so stark sind sie, here are the babies, it's impossible to hold the two of them [Umggsspr.], they are so strong; er ist stärker, als ihr alle beide zusammen, he is stronger than the pair of you together [Umggsspr.]; wir alle, all of us, we all: ihr wißt es alle, all of you know it; da sind sie alle! there are all of them! alles Andere war verloren, every thing else was lost; verlangen Sie alles Andere von mir, nur nicht ..., ask me for any thing else but ....

2) *The different forms of* All *always precede the article (or other definitive adj.), followed by its substantive:* alle die Bücher, alle meine Arbeit, alle unsere Familien ꝛc., all the books, all my labour, all our families, &c., *or it may follow this combination:* die Bücher alle, meine Arbeit alle, unsere Familien alle ꝛc., *but it can never, as has been stated, follow the article, &c.* (die alle Bücher ꝛc.), *thus coinciding with the English language.*

3) a) *Besides the regularly declined forms of* Aller, alle, alles, *an indeclinable form* All *is frequently to be found before the article, the possessive and demonstrative pronoun.* all der Jammer, all mein Gold, all dies Glück ꝛc., all the woe, all my gold, all this happiness, &c.; all des Jammers, all dem Jammer ꝛc., of all the woe, to all the woe, &c.; *the regular inflection, however, is generally preferred (in prose-writing) in the oblique cases* (alles des Jammers, allem dem Jammer ꝛc.), *in the fem., and in the plur.;* b) *instead of this* All, *an indeclinable* Alle *is employed, in all the cases just mentioned, by Luther and many of the best subsequent writers, as well as among the common people up to this day;* alle sein thun ist warheit (*Luther,* Dan. 4, 34), all whose works are truth; da gebot Pharaoh alle seinem volck (Exod. 1, 22), and Pharaoh charged all his people.

4) Alle *after the prepositions* auf, für, in, mit, sammt, über, zu ꝛc. *and preceding the article or a possessive pronoun, seems to be the remnant of an old instrumental case:* das sie dich behüten auff alle deinen wegen (*Luther,* Ps. 91, 11), to keep thee in all thy ways: mit alle seinem Blute (*E. v. Kleist*), with all his blood: aus alle dem (*Lessing*), from all this: mit alledem (*Gellert*), with all that, notwithstanding: trotz alledem, for all that, notwithstanding all that; mir wird von alle dem so dumm, als ... (*Göthe,* Faust), I feel growing so stupid with all this, as if.... — *If* dem *precedes, an inflected form of* All *must necessarily follow:* mit dem allen, *or, perhaps more correctly:* mit dem allem; *the regularly declined forms may be used in all the cases mentioned.*

5) *Adjectives following* all, *or* alle, *almost invariably assume the weak form in present usage, supplanting the strong form used in former times:* alle guten Geister (*Lessing* alle gute Geister), all good spirits; alle jungen Mädchen (*Lessing* alle junge M.).

6) a) *It is only in accordance with the notion of* All, *always respecting a plurality and employed in speaking of numbers, that it should be regularly used in the pl.* (Alle); *in this respect* Alle *is without a singular; the latter, if called for, is expressed by* jeder (every): *thus,* alle Menschen sind sterblich, all men are mortal, *may be expressed in the singular number by* jeder Mensch ist sterblich, every man is mortal. *A whole class of phrases, denoting the recurrence of certain periods of time, or similar divi-*

sions, may be expressed in German by employing either the Acc. (familiarly the Gen.) plur. (alle) *or of the sing.* (jeden, jede, jedes), *while the English language is confined to the sing.* (every): alle (*fam.* aller) Augenblicke, every moment; er ist alle Augenblicke krank, he is sick every now and then; alle Tage, every day; alle drei Tage, every third day; alle Jahre, every year; alle sieben Jahre, every seven years, every seventh year; *b) in a few exceptional cases, however, we find* all *connected with the singular of nouns, either abstract themselves, or in sentences conveying a generalized meaning; when Göthe says:* und so schläft nun aller Vogel | in dem groß und kleinen Neste (4, 124), *the meaning is, that sleep is the common lot of all creatures, of each and all;* aller Zustand ist gut, der natürlich ist und vernünftig (*Göthe*), all and every condition is good, which is natural and reasonable; alles Ding, all (created) things; die Frauen alles Standes (*Göthe*), the women of every (conceivable) grade, condition; allen Augenblick (*Göthe, very unusual for* jeden Augenblick), every moment; aller Anfang ist schwer, every beginning is difficult; alle Mühe ist umsonst, all exertion is useless; alle Achtung vor seinem Wissen, (with) all respect for his knowledge; sie haben alle Aussicht zu gewinnen, they stand a fair chance of obtaining the prize; Einem alle Ehre erweisen, to show one every honour (due to him, &c., *i. e.* not to be wanting in due respect, &c.); alle unsere (*or* unsere ganze) Hoffnung, our whole hope; wie nur den Kopf nicht alle Hoffnung schwindet, der ... (*Göthe*, Faust), how is it possible that all hope should not desert the wight, who ...; mit aller Gewalt, with full force, with might and main; er wollte mit aller Gewalt herein, he obstinately insisted on entering; in aller Eile, with all (possible) speed; ich wollte in aller Eile frühstücken, I intended to snatch a bit of breakfast; in aller Frühe (ganz in der Frühe, ganz früh), quite early, betimes; sie brachen in aller Frühe auf, they set out at a very early hour; er wurde in aller Stille begraben, he was buried very quietly; er antwortete in aller Ruhe, he answered altogether quietly; er sah dem Tode mit aller Fassung entgegen, he looked forward to death with perfect composure; ohne alle (ohne jede, *or* ohne all[e] und jede) Ursache, without any reason; ohne alle Vernunft, quite unreasonably, utterly void of reason; ohne allen Zweifel, without any doubt; auf alle Weise, in every possible way; alles Gute, everything good; der Geber alles Guten, the Giver of all good; alles Böse, everything bad, evil, &c.; der Urheber alles Bösen, the author of all evil; alle Welt: 1) (*almost syn. with* die ganze Welt) all the parts of the world; seine Sammlung ist leider in alle Welt zerstreut (*Göthe*), his collection has, I am sorry to say, been dispersed over all the world; 2) alle Welt weiß es, all the world, every body knows it; 3) *colloquial phrases:* in aller Welt (*cf.* zum Kukuk &c.): was in aller Welt machst du hier? whatever are you doing (are you at) here? wo in aller Welt steckt er jetzt? wherever is he now? ich begreife in aller Welt nicht, was das heißen soll, I am entirely at a loss how to explain this.

7) All und jeder, *emphatically*, all and every, all and sundry, each and all (of them, &c.), one and all; *in this combination* All, *at least in the sing., almost invariably drops its inflection altogether, as is sometimes the case with the first of two adjectives connected by* und (*cf. f. i. Göthe's* in dem groß und kleinen Neste); *it is curious that in this combination* jeder (*which otherwise is without a plural*) *may assume the plural form:* all und jede *or* alle und jede; es sei Allen und Jeden gesagt, es komme zu Aller und Jeder Kunde, let it be (*or* be it) known to each and all; er spricht bei all und jeder Gelegenheit, he speaks on every and any occasion.

8) *Adverbial use. The neuter* all *seems to admit of an adverbial construction a) in such combinations (mostly occurring in poetry), as* all säuberlich und nett (*Bürger*), all (*i. e.* entirely, altogether) nice and tidy; *it is often placed before* überall *to intensify the meaning;* überall, all überall, everywhere, in every place; und überall, all überall, | auf Wegen und auf Stegen (*Bürger*, Lenore), and everywhere, aye, everywhere | in road, and lane, and street (*Baskerville*); es ist all eins (*Göthe, Schiller*), *although equivalent to* it is all one, *is by no means as frequent as the English phrase; b) provinc. (Low Germ.) for* Schon (*which see*): already; das weiß ich all, I know that already.

9) All, Alle, *in the sense of* at an end, finished, all gone, done, out, used up to the very last item, no more, &c. *and in connection with* sein, werden, machen. All *in these colloquial phrases is not an adverb, but is rather used as a predicative adjective* (fertig, *provinc.* gar &c.): der Wein ist alle, the wine is at an end, out, &c., there is no more wine; das Geld ist alle, the money is spent; alle werden, to run out, to be spent; alle machen, to finish, to do away with, to get through with ..., to exhaust, dissipate, &c.; die Kugeln sind alle (*Göthe*), the bullets are spent; nun schießt nur hin, daß es alle wird (Egmont I, 1), now, shoot away, and make an end of it, *or*, and have done with it.

A. **Als**, *a frequent mode of spelling the contraction* Als *(for* Alles), *which is to be preferred in order to avoid confusion with the conjunction* Als *(B)*.

B. **Als**, *conj.* 1) † *in the primary demonstrative sense of* also, so, *at the head of a conclusive sentence, for the modern* so, *which is not expressed in English:* nachdem unser Feldherr ... sich bewegen lassen, noch bei der Armee zu verbleiben ..., — verpflichten wir uns ... *(Schiller*, Picc. 4, 1), *(Coleridge:)* Inasmuch as our supreme commander ... has consented to remain still with the army, ... so we ... do hereby oblige ourselves ....

2) *In comparisons: a) in connection with a verb,* † *for our present* wie: du sollst deinen Nächsten lieben — (wie) dich selbst (Matth. 22, 39), thou shalt love thy neighbour as thyself; seine Hörer zu bewegen | sprach er — (wie) ein Cicero *(Hagedorn)*, to move his hearers he spoke like a Cicero; *in this sense* als wie *were sometimes combined, a phrase avoided by modern prose:* bedarf er nicht der Nacht — wie des Tags? *(Göthe)*, does he not want the night as well as the day? so klug als wie zuvor *(the same)*, no wiser than before; *b) in connection with a substantive, also* † *for* wie: in einem Lande — Deutschland *(Lessing)*, in a country like Germany; — wie *for* wie: die Zeiten sind — wie ein Rad *(Logau)*, time is like a wheel; *c) in connection with the positive degree of an adj.*, † *for* wie: weiß — Schnee (Matth. 28, 3), white as snow; — wie *for* wie: weiß und roth — wie ein wächsern Bild *(Wieland)*, as white and red as a waxen image; *d) aa) in all the cases mentioned under a, b, & c* — († also) *was often preceded in the first clause of the sentence by a correlative word, viz.* so († — *for* also) *before verbs, adjectives, and adverbs,* solch *before substantives, &c.; thus* als ... als ... *was used as late as the 16th cent.:* — roth — Scharlach, as red as scarlet, &c.; *either of these correlative or correspondent words is not seldom omitted; a mere* so *in the modern mode of speech is sufficient to connect the two clauses:* — *(for ancient* also) viel *(omitted* als) an uns ist *(Luther)*; *modern examples:* so viel (—) an uns liegt, as much as in us lies; so gut (—) ich konnte, as well as I could; *instances of the second kind (i. e. omission of the first correlative) are very numerous:* der Ofen glüht, die Bälge blasen *[omitted* so, so sehr], | — gält es Felsen zu verglasen *(Schiller*, Gang zum Eisenhammer), the furnace glows, the bellows blow, as if the task were to melt rocks into glass; *bb) in correlative sentences and phrases, such as* so viel (so wenig, so gut, so schlecht ꝛc.) — möglich, ꝛc.; so schnell (so langsam, so kurz, so lang ꝛc.) — ... ꝛc., als *is still, and perhaps more frequently used than* wie: Einer ist so viel werth — *(or* wie) der Andere, one is as much worth as the other. *So likewise in the combinations* — wenn *(or* wie wenn, wie wann), — ob, — daß *(never* wie ob, wie daß) &c.; er that (stellte sich), — wenn *(or* — ob) er nichts wüßte, he made (a show) as if he knew nothing; *e) aa) after the comparative degree of an adjective. This is the proper province of* als *in modern High-German:* (roth wie Blut, *but:)* röther — Blut, redder than blood. *But even here* wie *(and* — wie) *is not only used colloquially, but by good writers. Besides this* als *the old* denn *has been retained in the more elevated style and even in common usage, when a collision of two* als *would have produced a bad sound:* — Knabe war er schöner denn *(for* als) — Jüngling *(Grimm)*, as a boy he was more beautiful than as a youth; lieber frei sterben, denn — Sklaven leben, rather to die free than to live as slaves, &c.; *bb)* als *is also used after words which, though not comparatives as to their outward form, imply a comparison; thus after* ein anderer *and its derivatives,* sonst, *negatives and interrogatives, &c., the latter term of an exclusive comparison is introduced by* als, *exactly corresponding to the cases which in English require* than *after* other *(cf.* Ander), otherwise, else, *or* but *(in the sense of* besides): er gab keine andere Antwort, — einen barschen Ton der Zustimmung, he gave no other answer than a gruff sound of acquiescence; was wir Fabeln oder Parabeln nennen, sind nichts anderes, — Allegorien, what we call fables or parables are no other than allegories; Stil ist nichts anderes, — die Art des Ausdrucks, welchen ꝛc., style is nothing else than that sort of expression which, &c.; wir urtheilen anders von ihnen — von uns selbst, we judge otherwise of them than of ourselves; sie liebt keinen — ihn *[perhaps better:* außer ihm], she loves none but him; wer anders kann gemeint sein, — ich? who can be aimed at but I? keiner — ich war zugegen, none but I was present; er ist zu klug, — daß er an Gespenster glauben sollte *(Heyse)*, he is too clever to believe in ghosts; er ist zu klug, — daß ihm dieser Vortheil entgehen sollte, he is too prudent for this advantage to escape him; eine zu fest eingewurzelte Gewohnheit, — daß das mildeste Frühlingswetter sie ändern könnte, a habit too inveterate for the most genial spring-weather to alter.

3) Als *identifying: a) before predicative cases, particularly the nom. & acc., identifying a logical subject and its predicate;* ich komme — Bote *means* I come as a messenger, *i. e. although not in general a messenger;* er starb — Bettler, he died (as) a beggar; er schrieb mir — Antwort (auf ...), — Erwiederung, he wrote to me in answer (to ...), in return; *b) this* als *rendered by other English turns of phrase:* sie läßt die armen Kinder Sackleinwand — Lätzchen und Bindfaden — Strumpfbänder tragen, she lets the poor children wear sackcloth for pinafores, and packthread for garters; er ließ nie Jemand — Minister zu, der ..., he never admitted any person to be his minister, who ...; ich wurde — Ungläubiger angesehen, I was considered (to

(Vgl.: I'll live and die a maid, to live and die her slave, &c.); *d)* als *introducing enumerations, &c., to be explained as representing a shortened sentence: aa)* es gibt drei grammatische Geschlechter, — *(for* — da sind, *which is likewise used)* Masculinum, Femininum, Neutrum, there are three grammatical genders, viz. masculine, feminine, neuter; diejenigen neueren Sprachen, — *[or* wie] die französische &c. *(Lessing)*, those modern languages, as, for instance, *(or,* such as) the French, &c.; Weihnachtsgeschenke, — *(or* wie) Bücher, Kleider, Spielzeug, lagen auf dem Tisch, Christmas presents, in the form of books, clothes, playthings, lay on the table; *bb) before* heute, morgen, gestern &c., *similar to the English* as to-day, as to-morrow, &c., *rather colloquial:* er benachrichtigte mich, daß er — *(or* — wie) heute Morgen hatte zu mir kommen wollen, he informed me that he had intended to come to me as this morning *(cf.* As, Vol. I.). *This* als *always serves to put the word or words which it introduces prominently forward, and is even, though seldom in recent usage, combined with the relative:* ihr habt diesen Menschen zu mir gebracht, — der das Volk abwende (Luke 23, 14), ye have brought this man to me, as one that perverteth the people.

4) Als, *temporal*, when; *always relating to some past event which took place simultaneously with some other event:* — wir in die Stadt fuhren, hörte es auf zu regnen, when we drove into the town, it ceased to rain *(just as* the one event took place, *so* the other took place, *i. e.* simultaneously); — ich das Vorgemach durchgehe *(Schiller; the historic present for the imperfect* [durchging] *of common prose)*, on passing through the antechamber, I heard, &c.
